Yoga Nidra

“

If consciousness can be separated from external awareness and from sleep, it becomes very powerful and can be applied in many ways, for example, to develop the memory, increase knowledge and creativity, or transform one's nature.

Swami Satyananda Saraswati

The Offering

Shrimath Yoga Nidra is a 9-level system created by Krishna, practiced in 48 countries. Participants understand the neuroscience behind Yoga Nidra along with principles from Yoga-Vedanta and Tantra.

A mandatory 21-day daily practice helps participants realize the benefits before the end of the studies.

Residential Campus

Shrimath Yoga, established in 2011 has earned a 'Certificate of Excellence' since 2014 from international travel portal TripAdvisor.

Its alumni are spread across 48 countries and **Shrimath** aims to establish itself as centre of excellence in traditional Yoga.

*Yoga Nidra is not a state of unconsciousness,
but rather a state of heightened awareness
and relaxation, allowing one to be fully present
while in a deep state of rest.*

Swami Rama of the Himalayas

Introduction: Yoga Nidra

Yoga Nidra is an ancient Tantra practice, redesigned to suit the needs of today. It was brought to light by *Swami Satyananda Saraswati* of Bihar School of Yoga and *Swami Rama of the Himalayas*.

Since 1970s, it's efficacy is being scientifically studied, with the start being made by the likes of The Menninger Foundation (USA) and others.

The top 3 tangible benefits for a beginner are: conscious relaxation, stress reduction and desire manifestation.

Improved health, deeper meditative states and clarity on one's purpose of life emerges for the regular practitioners.

Through **Shrimath Yoga Nidra**, participants learn principles and processes from Yoga-Vedanta and Tantra, apart from the neuroscience behind it.

The mandatory 21 Day daily practice that we emphasise, enables the benefits to be realised much before the end of the studies.

To conclude, Swami Satyananda and other Masters clearly mention that a Pratyahara practice like Yoga Nidra is the first step towards Samadhi (transcendence)

“

Yoga Nidra is an essential stage which prepares the mind by inducing relaxation and awareness.

Top 7 Benefits

1. Conscious Relaxation

Yoga Nidra helps restore balance between professional and personal life by helping to get clarity on priorities.

2. Deep Sleep

With regular practice, it improves sleep quality, enhances healing and renews your energy. Short practice prevents work-related burnout and fatigue.

3. Stress Reduction

Yoga Nidra dissolves deep layers of emotional, mental and physical tensions. Studies, including those from IIT Delhi, show its role in stress relief.

4. Manifestation

By accessing the subconscious, Yoga Nidra activates inner potential. Clear intentions and right focus align thought with action. Consistent practice helps manifest legitimate desires.

5. Meditation

For many, meditation feels challenging due to constant thoughts. Yoga Nidra serves as a doorway, gently guiding the mind inward. It creates the stillness needed to deepen meditative practice.

6. Sacred Sauce

Daily practice enriches the various roles you play at home and work. Leaders, coaches, and teachers gain clarity, empathy, and presence. It is the subtle ingredient that elevates both life and work.

7. Improved Quality of Life

Consistent practice helps to cultivate mindfulness, calmness, and resilience. Situations and people cannot be changed but Yoga Nidra helps to handle everything appropriately.

Testimonials

Yoga Nidra, or Yogic Sleep, is a guided practice that explores different layers of awareness and encourages the repetition of a personal resolve (Sankalpa) to manifest wishes.

I completed my Yoga Nidra course and **after three weeks of practice, I achieved my personal health-related resolve.** If well-being interests you, this could be an excellent starting point.

Yoga Nidra isn't magic, but it offers a transformative experience. It helps individuals connect deeply with themselves, an experience many may not have had before.

After trying it for the first time in December 2023, during a challenging period as a new coach and entrepreneur, I noticed significant changes in my sleep, feelings, and overall functioning after just one session.

I have always believed in personal transformation, but experiencing Yoga Nidra (level 4) with Krishna at Shrimath Yoga was transformative. From the first session, I felt deeper sleep, improved focus, and mental clarity.

Krishna's hands-on teaching style immerses you in practice, allowing real-world application of Yoga Nidra's benefits. For leaders making impactful decisions, this practice offers enhanced balance, clarity, and creativity.

To me Yoga Nidra allows in accessing a place within ourselves that is not always easy to access when we are busy. **With the continued practice, it gets easier to be more in the moment** and build something that is not like fast fashion but something meaningful and sustainable to leave behind for us and others.

Krishna's living tradition and collaboration allows for a practice that is relevant to what folks experience day-to-day.

My most important insight was that we can only lead people to states that we have experienced ourselves. Simply reading the script for a session is not enough. **One must have the awareness that comes from deep and honest experience.**

I cannot imagine a better setting for this learning. Surrounded by forest full of birds and a field where sheep and cows quietly grazed, I was able to sink into the peace and stillness in a way that I have never felt in my hectic American lifestyle.

I completed a 27-day Yoga Nidra course with Shri Krishna Prakash, which was **well-structured: 6 days of concepts followed by 21 days of practice.**

The course, rooted in Vedic traditions, helped me understand and manage my mind, thoughts, and emotions. This is just the beginning for me, and I look forward to further learning and practice!

I'm deeply grateful to Krishna ji, his compassionate guidance and calming presence created a safe space for healing. His voice, his intention, and his care made a difference when I needed it most. Thank you for sharing this gift- it truly helped me find peace.

As people say - our passions, interests, and even our deepest inquisitions are often awakened and guided by the presence of a right guru. I definitely now understand the truth in that.

My meeting with Krishna was destiny, in my opinion. I felt a complete peace and calm, as he asked me to wait for a few minutes while he was taking class for someone else.

He then patiently explained to me about the course and I signed up on the spot. **The course covered all aspects of true values in life and work, with asanas and postures were one but an important part of it.**

Collaboration with Yoga Schools

An opportunity for Yoga Schools to offer Yoga Nidra TTC to your registered Yoga Teachers.

Our collaboration with Param Yoga School, Pune

At **Param Yoga**, we are thankful for our collaboration with **Shrimath Yoga** to host the **Yoga Nidra Teacher Training Course** at our Pune center. This partnership combined Shrimath Yoga's authentic teachings with Param Yoga's nurturing environment, creating an enriching experience for participants. The course offered in-depth theoretical and practical immersion in Yoga Nidra, featuring clear instruction and supportive guidance.

Personally, attending the TTC was transformative, showcasing Yoga Nidra's benefits like deep relaxation, improved concentration, and emotional balance. Notably, the **21-day resolution practice (Sankalpa)** helped manifest my intentions, reinforcing my belief in its life-changing potential.

We cherish our partnership with Shrimath Yoga and look forward to future collaborations aimed at spreading Yogic wisdom and fostering self-growth and transformation.
